Sai Kesava Santhos

Operation Core @ siNUsoid

Neemrana, Rajasthan, India

Summary

I'm someone who enjoys connecting the dots — whether it's through data, design, or daily life.

From building logic in image processing to comparing search algorithms, I love understanding why things work — not just how.

I balance analytical thinking with creativity, whether writing optimized code, crafting structured communication, or exploring tech that meets real-world needs.

Also the go-to person for group planning, problem solving, and asking the questions others overlook.

Interests: Computer Vision | Data Structures | System Efficiency

Strengths: Analytical Thinking | Team Collaboration | Creative Problem Solving

Motto: "Think logically. Live thoughtfully."

Experience

siNUsoid

2 years 2 months

Operations core

April 2026 - Present (5 months)

Operations Lead

May 2025 - April 2026 (1 year)

Operations Volunteer

July 2024 - May 2025 (11 months)

TEDxNIITUniversity

production Volunteer
